

Make a Xmas Cracker

You will need:

**cracker fold out, glue, scissors, decorations,
pipe cleaners or ribbon pieces x 2**

1. Take the cracker fold out and pop out the loose diamond shapes.

2. Cut out any decorations or coloured paper you want to use and put them where you will want to glue them on the cracker, or use felt tip pens to decorate.

3. Stick down your decorations, making sure you leave the slots where the cracker will be folded free.

4. Fold over the central part of the cracker first and fix in place using the slot and tab so that you create a tube. Add the contents of the cracker (including riddle, hat and present).

5. Carefully fold over each side of the cracker using the slots and tabs and tie a pipe cleaner or piece of ribbon to keep the presents safe in the middle.
